

Balance B12

Liquid (Methylcobalamin)

4 FL OZ (120 ML) LIQUID

- Support Red Blood Cell Formation and DNA synthesis
- Support Metabolism and Energy Production
- Support Neurotransmitter Signaling
- Regulate Healthy Nervous System, Memory and Mood
- Support the Immune System
- Regulate Healthy Heart

Methylcobalamin is the active, coenzyme form of vitamin B₁₂, prepared as a liquid for rapid and efficient absorption. In addition to its role in supporting red blood cell function, methylcobalamin is the preferred form of B₁₂ for regulating homocysteine and for supporting numerous aspects of neurological health.†

Serving Size 1 Dropperful (Approx. 1 mL)

Amount Per Dropperful

Vitamin B₁₂ (as methylcobalamin)

Other Ingredients:

Purified water, glycerin, cranberry and cinnamon flavoring, and ionic copper solution.

Suggested Use

Shake well before serving. Place 1 dropperful (1.0 mL), 1 to 5 times daily in mouth and hold for thirty seconds before swallowing or as directed by a healthcare professional.
